

Natural Advantage introduces **Natural Anisyl Formate (FEMA 2101, CAS 122-91-8)**. Anisyl Formate is found in anise seed, honey, tomato, and vanilla. The taste of this product can be described as sweet, fruity, and vanilla-like. It is reminiscent of cured vanilla beans with an exotic floral background. Flavor uses for anisyl formate include chocolate, honey, peach, tea, and vanilla. Recommended Use Level: 0.2-10ppm as consumed.

EU and US Natural, Kosher, Non-GMO, Vegetarian.
