

Natural Advantage, LLC introduces **Natural /-Linalool Oxide (FEMA 3746; CAS1365-19-1)**. It occurs naturally in green and black teas. Linalool Oxide can be described as camphorous, floral, fruity, spicy, tea-like, woody, and even refreshing. It is well known for adding depth and sweetness to tea and lemon flavors as well as enhancing woody notes in red wines. Natural Linalool Oxide can also be used for refreshing top notes due to the fact that it has nice uplifting sensations at certain levels.

Recommended use level: 0.05-10 ppm in finished products.

EU and US Natural, Kosher, Non-GMO, Vegetarian.
