

Ethyl Butyrate ex Orange FTNF, Natural
Natural Advantage, LLC
www.natadv.com

Natural Advantage introduces **Natural Ethyl Butyrate ex Orange FTNF, (FEMA 2427, CAS 105-54-4)**. This material is extracted from oranges. The sweet, fresh squeezed taste of Ethyl Butyrate makes it a desirable natural product to use in juice blends, specifically orange juice. With this ingredient, you can be sure to keep your products natural and your labels clean. Label claim: FTNF Orange

Recommended use level: 0.001-1ppm.

EU and US Natural, Kosher, Non-GMO, Vegetarian
